

M.Sc Physics

- a) The course would allow students to develop a strong footing in the fundamentals and specialize in the disciplines of his/her liking and abilities.
- b) The students pursuing this course would have to develop in depth understanding various aspects of the subject.
- c) The principles in Physics will be studied in depth. Students will have deeper understanding of laws of nature through the subjects like classical mechanics, quantum mechanics, electrodynamics, statistical physics etc. Students' ability of problem solving will be enhanced.
- d) Students can apply principles in physics to real life problems.
